

Thank you for your interest in a GrainMaker®.

We want you to be 100% confident when you purchase a mill or accessories from us. That's why all of our products come with a satisfaction guarantee. Try any product for 30 days. If you are not satisfied with your purchase for any reason during that time, simply return it for a full refund.

We accept personal checks, Visa, MasterCard, Discover, American Express and PayPal. We also offer free four or six month layaway on any purchase for those who wish to make monthly installments. Call or visit the website for details.

We are happy to offer Custom Engraving if you would like to personalize your GrainMaker®. The cost is \$3 per character, including spaces & punctuation, up to 30 characters maximum. Call for more information.

We are available by phone at 406-777-7096 or toll-free at 855-777-7096 to answer your questions or assist with ordering during regular business hours (Mountain Time Zone). You can also complete your order securely online 24/7 at www.grainmaker.com.

You can "Keep up with the Joneses" for the latest company news, recipes and ideas on [Twitter@flourhappy](https://twitter.com/flourhappy), like us on Facebook or connect on Linked In.

We look forward to talking with you.

Randy & Bonnie Jones

Proverbs 3:5-6

GrainMaker® mills are built to be used, loved and handed down to the next generation

PO Box 130
Stevensville, MT 59870

Model N^o99 with
 GrainMaker® Clamp.....\$740.00 + Shipping

Model N^o275 with
 GrainMaker® Clamp.....\$788.50 + Shipping

GrainMaker® worked closely with Bodine Motors of Peosta, Iowa, USA to create a custom motor for our mills. Easy conversion with no belts needed for GrainMaker® Models N^o116, N^o99 or N^o275 – simply remove the flywheel and slide the motor directly onto the shaft of the mill.

- 3.6 Amps, 115 Volts and 60 Hz.
- 1/5 Horsepower produces 150 inch pounds of torque
- Turns at just 63 RPMs; grinding at cooler temps means you will not destroy the essential nutrients in your whole grains

Customer is responsible for complying with all local and federal electrical codes.

Not Your Average Run of the Mill!

"I'm Randy Jones, owner of Bitterroot Tool and Machine, exclusive builder of GrainMaker® mills. Back in 1998, my wife Bonnie wanted a hand-operated grain mill. We couldn't find one we liked, so I made one! I don't think either of us imagined how our lives would be changed by that first GrainMaker® mill. Today we ship our mills all over the globe, and have been blessed by meeting so many people who are ready to take charge of their food and improve the quality of their lives."

"Hello! I'm Bonnie Jones. In 1999, I was home-schooling our children and loved being at home baking and canning. As our children continued to grow, so did our business. In 2008, with our children grown and starting families of their own, I joined my husband at the shop. It was a natural move since using the GrainMaker® mill was personal for me. Two of our boys work here and my daughter occasionally comes in when I need help. We are 'hands-on' in the shop, in the office and at trade shows around the country. Randy came up with the original mill design, and continues to put his skills and imagination to work on accessories and new products. Today I answer the phone, assist customers and keep the office running smoothly. We are also Nana and Boompa to a growing family, so don't be surprised if you hear little voices in the background when you call the office."

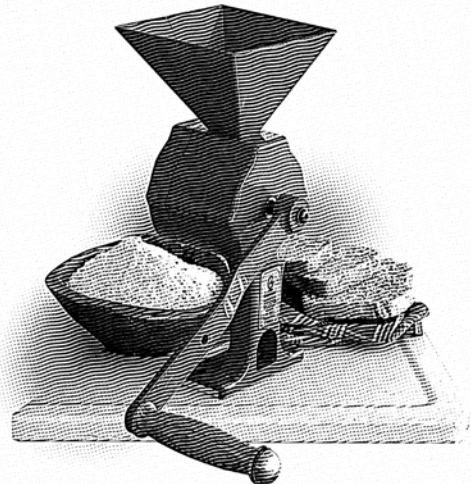

Roller/Flaker

GrainMaker® Model N^o275.....\$725.00 + Shipping

Flake your own grains for custom whole grain cereals, granola, ingredients for baked goods or animal feeds.

- Lifetime Heirloom Guarantee

The Jones family stands behind every product with a 30-day Guarantee of Satisfaction. On or off the grid, every GrainMaker® is a superior piece of engineering and workmanship you will be proud to own.

From our humble beginnings in 1999, Bitterroot Tool & Machine continues to grow. With over 100 years of combined engineering and machining experience, we also serve various industries including data storage, munitions, aerospace and firearms.

We earned our ISO9001:2008 certification in 2009. Today we employ 20 full time, awesome employees.

We are still a family business, now we just have a few more families in the business!

DIY Motorizing Kit

\$255.00* / Model N^o116

\$225.00* / Model N^o99

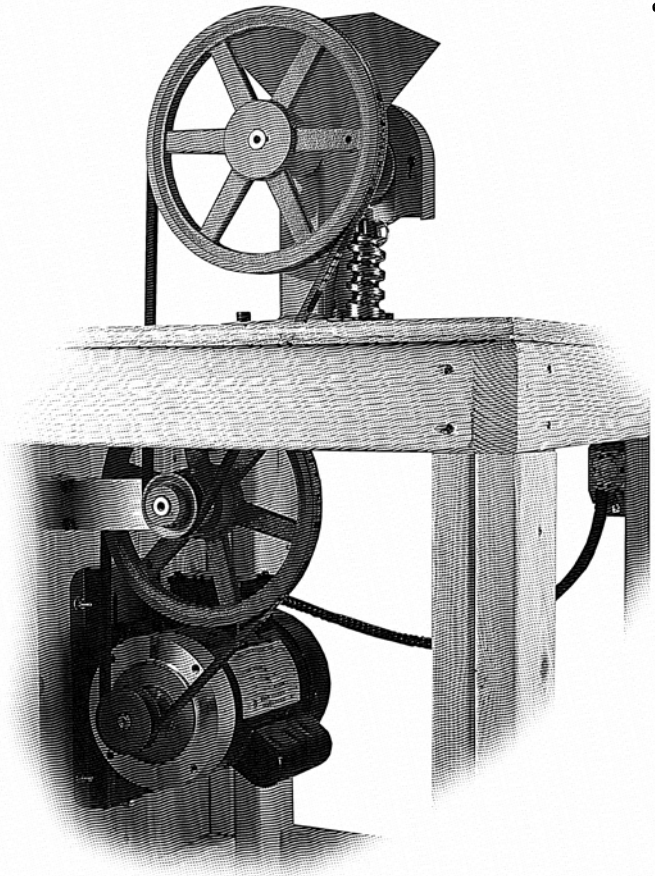

\$225.00* / Model N^o275

* + Shipping

This kit was designed for the person who wants to use his or her own electric motor to power their GrainMaker[®] mill. The ratio reducing jackshaft keeps RPMs at a safe grinding speed to preserve the vital nutrients in your grains and protect your mill. This kit does require some degree of mechanical skill to assemble. It can be assembled either vertically (recommended, as shown) or horizontally.

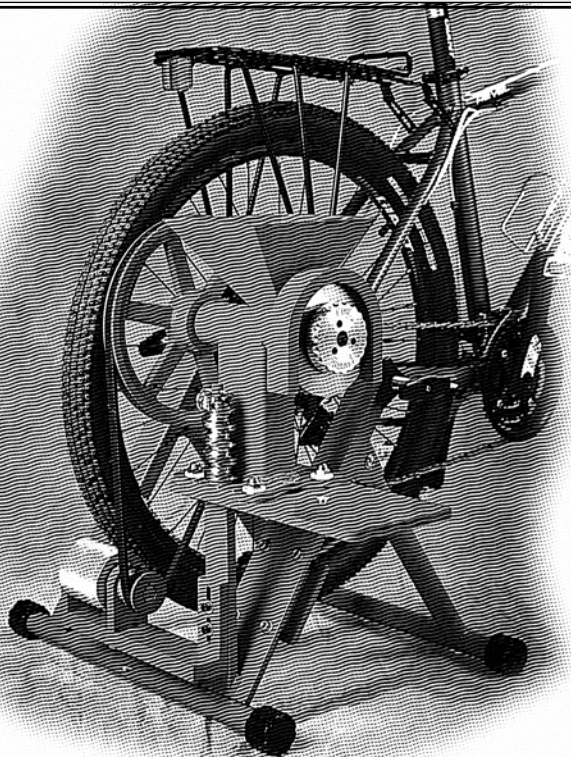

- 3 Pulleys
- 2 Belts
- Ratio reducing Jackshaft
- Motor not included

Note: This informational photo shows an assembled DIY Motorizing Kit without safety guards. It is the customer's responsibility to properly guard all areas of the assembly for safety. Customer also assumes responsibility for complying with all local and federal electric codes.

GrainMaker[®] Mills are changing people's lives in all fifty states and in countries all around the globe!
They are versatile, dependable kitchen tools used to grind:

Wheat Berries ~ Legumes ~ Corn ~ Rice ~ Spelt ~ Rye Berries ~ Kamut ~ Dried Peas ~ Barley ~ Quinoa ~ Coffee Beans ~ Flax Seed ~ Dried Hawthorne Berries ~ Poppy Seeds ~ Popcorn ~ Peanuts ~ Dehydrated Vegetables
Oat Groats ~ Buckwheat ~ Sorghum/Millet ~ Cacao Nibs ~ And

Bicycle Conversion Kit

\$345.00* / Model N^o116

\$285.00* / Model N^o99
